PROFILE

Full-stack web developer who transforms ideas into impactful digital experiences, with over 3 years of expertise across the development lifecycle. Graduating top of class from Digital Career Institute demonstrates technical excellence and leadership through spearheading team project. A passion that extends beyond coding—working as a web development tutor has empowered 20+ students to overcome complex challenges and build meaningful applications, achieving a 90% satisfaction rate. Experience ranges from crafting responsive e-commerce platforms to interactive learning tools, blending technical precision with creative problem-solving. Driven by an insatiable curiosity and commitment to excellence, this approach continuously evolves to create digital solutions that not only meet requirements but exceed expectations.

EDUCATION

Web and Software Developer, Digital Career Institute 2024 - 2025

Extensive Digital Literacy (Linux, Git, GitHub), Front-end UI (HTML, CSS, SCSS, Bootstrap), Programming Fundamentals (JavaScript, Node.js, NPM, OOP, Functional Programming), Single-Page Applications (React, Promises, ESM), Backend Development (Express, MongoDB, Authentication with JWTs), and Project Management with Agile methodologies.

Full Stack Web and App Development, WBS Coding School 2021

Responsive front-end programming web design with JavaScript/React, Back-end development with Node.js (Express), Version Control Systems, Databases (SQL, NoSQL), RESTful APIs, DevOps (Hosting, Deployment, Monitoring), Software Testing, and Agile methodologies.

Information Technology / Associates Degree, ITT Technical Institute 2014 - 2016

Operating Systems, Computer Systems, Database Systems, Computer Networking, Computer Architecture, and Website Design

PROJECTS

Flixx Movie Search Database.

[Flixx](#) 

- Dynamic and user-friendly movie database designed for seamless exploration of diverse films. Search for your next cinematic experience with ease, utilizing robust filters and personalized recommendations. Discover, explore, and curate a watch list effortlessly on this comprehensive movie platform. Built using JavaScript, HTML, CSS, and compiled with Webpack

DietTracker App:

[DietTracker App](#) 

- Empower your health journey with my intuitive diet tracker app. Effortlessly log meals, track nutritional intake, and set personalized goals. Access insightful analytics to make informed choices, while enjoying a user-friendly interface that transforms managing your diet into a positive and empowering experience. Built with JavaScript, HTML, and CSS.

Inquizable:

[Inquizable](#) 

- Elevate your general knowledge with my interactive quiz app. Immerse yourself in a diverse range of questions, challenge your intellect, and track your progress. Enjoy an interactive learning experience that makes the acquisition of new knowledge both exciting and rewarding, all with the convenience of our user-friendly quiz application. Built using JavaScript, React, TailwindCSS, Node.js, and MongoDB.

Four Flavours Express:

[Four Flavours Express](#) 

- Four Flavours Express is an e-commerce food delivery platform developed featuring integrated Cloudinary media management and Stripe payment processing. The responsive web application delivers a seamless ordering experience with secure transaction handling and optimized mobile performance, demonstrating full-stack development capabilities and UI/UX design skills. Built with Vite.js, TailwindCSS, JavaScript.

EXPERIENCE

Coding and Web Development Tutor

Digital Career Institute

Berlin, DE

March 2024 - current

- Delivered comprehensive instruction on web development fundamentals to 20+ students, covering HTML5, CSS3, JavaScript, React, and backend technologies with a 90% student satisfaction rate.
- Designed and facilitated 15+ hands-on coding projects, enabling students to build responsive websites and interactive web applications while applying industry best practices.
- Implemented systematic debugging strategies, reducing student code error resolution time by 40% and improving overall project completion rates.

Web Developer

Freelance

Berlin, DE

July 2021 - August 2023

- Developed and deployed 10+ custom websites for clients across various industries, utilizing React.js, Node.js, and responsive design principles to deliver mobile-optimized user experiences.
- Implemented custom features and integrated third-party APIs (Stripe, Google Maps, Cloudinary) to enhance website functionality and user engagement by an average of 35%.
- Established efficient client communication protocols, maintaining 100% on-time project delivery rate and achieving a 95% client satisfaction score.
- Managed complete project lifecycles from requirements gathering to deployment, implementing CI/CD pipelines that reduced deployment time by 50%.

Sous-Chef

Dog and Bull Brew Music House

Pennsylvania, U.S.A

June 2009 - March 2019

- Assist in Kitchen Operations: Support the chef in planning, preparing and organizing daily kitchen activities to ensure a smooth workflow and high-quality product.
- Supervise Staff: Oversee kitchen staff, delegate tasks, and ensure adherence to recipes, presentation standards, and food safety regulations.
- Create and Execute Menus: Contribute to menu development by experimenting with recipes, incorporating seasonal ingredients, and ensuring menu align with the restaurant's vision.
- Maintain Inventory and Supplies: Monitor stock levels, coordinate with suppliers, and ensure that the kitchen has the necessary ingredients and tools to operate efficiently.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Technologies: React.js, Redux, TailwindCSS, Bootstrap, Webpack, Vite.js, Responsive Design

Backend Technologies: Node.js, Express.js, RESTful APIs, JWT Authentication, MongoDB, Mongoose, SQL

Development Tools: Git, GitHub, VS Code, NeoVim, Chrome DevTools, Postman, npm, Agile/Scrum

Soft Skills: Collaboration, Communication, Problem-Solving, Attention to Detail, Adaptability

LANGUAGES

English: Mother Tongue/Native

German: A2.1 Level committed to progressing toward B1 level proficiency

CONTINUOUS LEARNING

- Self-Directed Learning: Actively pursue advanced programming concepts through in-depth technical literature and industry documentation, with a particular focus on emerging software development methodologies and best practices.
- Professional Certifications: Successfully completed multiple specialized certifications and advanced training programs, demonstrating a consistent commitment to technical excellence and staying at the forefront of industry innovations.
