ABOUT ME

Full-Stack Developer with 4+ years of experience, specializing in agentic AI, intelligent automation, and robust backend systems. Passionate about building LLM-backed workflows, custom AI tools, and scalable data pipelines that turn complex logic into automated business solutions. Expert in connecting APIs, webhooks, and relational data to optimize processes and drive efficiency.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, PHP, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Redux, TailwindCSS, SCSS, Vite.js, Webpack, Responsive Design

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, HTTPX, Pydantic, Nodemailer, jsPDF

Databases: PostgreSQL, TimescaleDB, MongoDB, SQLite, Mongoose

DevOps & Tools: Git, GitHub, Docker, Arch Linux, CI/CD Pipelines, Postman, VS Code, NeoVim, Agile/Scrum

KEY OPEN SOURCE PROJECTS

OllamaTerm:

- Developed an agentic terminal interface supporting local streaming LLMs, advanced tool-calling, and autonomous agent loops.
- Engineered extensible AI workflows designed to reason and adapt to complex user prompts.

Private Data Warehouse:

- Built a robust, automated financial data pipeline processing 660+ equities for real-time time-series analysis.
- Optimized PostgreSQL and TimescaleDB architectures to handle high-velocity data orchestration.

DevLogger:

- Created a Node.js developer CLI tool that automates work log tracking via Git commit extraction, eliminating manual documentation.

PROFESSIONAL EXPERIENCE

06/2025 – 03/2026 | Full-Stack Developer

U-Glow GmbH, Mülheim an der Ruhr, DE (remote)

- Refactored legacy backend systems into decoupled, type-safe microservices to optimize high-velocity data orchestration.
- Engineered Next.js/TypeScript analytics dashboards, accelerating client decision-making by 25%.
- Designed and integrated robust RESTful APIs and webhooks to seamlessly connect internal tools with third-party services.

03/2024 – 05/2025 | Web Development Tutor

Digital Career Institute, Berlin, DE

- Mentored 20+ students, reducing their debugging times by 40% through systematic Chrome DevTools strategies.
- Achieved a verified 90% student satisfaction rate throughout the program duration.

07/2021 – 08/2023 | Freelance Web Developer

Berlin, DE

- Deployed 10+ custom React.js/Node.js platforms to deliver optimized user experiences.
- Integrated complex APIs, including Stripe for subscription models, boosting user engagement by 35%.

06/2009 – 03/2019 | Sous-Chef

Dog & Bull, Pennsylvania / USA

- Led high-pressure kitchen operations, team leadership, and logistics under tight timelines.

EDUCATION

04/2024 - 06/2025 | Full-Stack Development

Berlin, Digital Career Institute

03/2021 - 06/2021 | Web & App Development

Berlin, WBS Coding School

01/2017 - 01/2019 | Associate Degree in Information Technology

Philadelphia/ USA , ITT Technical Institute
